

## WHAT IS URBAN TRAX

Urban Trax provides an opportunity for young Aboriginal and Torres Strait Islander people to be involved in all aspects of community life and encourages positive social involvement and long term outcomes.

It is a Program specifically designed, developed and coordinated by First Contact Aboriginal Corporation for Youth.

First Contact identified that there is an ongoing demand for programs which incorporated key components such as awareness, prevention, innovation and culture all wrapped in together.

The program is adaptable and because of this you can be ensured that it reaches those most at need.

Our service is South East Queensland.  
(See Card No 11 for Service Area)

From Primary Schools including special education centres to sporting and community events we can design a program especially for you.

Urban Trax looks at tracking our young people through their life cycle both the good and the difficult times.

Our Service is confidential and respects the rights of individuals, families and cultural values.

All of the Urban Trax Crew hold a Child Safety Blue Card.

Urban Trax provides a follow up and support system unequal by any other service provider.

Urban Trax is high energy and visual to the users.

Urban Trax produces positive outcomes for the young people and their families which contribute to a healthy and functional community.

The Program components can be individually developed and adapted to suit your individual, group or community needs in line with existing trends.

If you are looking for an Innovative and Flexible Program call the Urban Trax Team today.
